**MINUTES OF SWANA CALIFORNIA LEGISLATIVE
TASK FORCE TELEPHONE MEETING**

September 6, 2012

By: Mark Urquhart, Secretary

The Legislative Task Force (LTF) meeting started at about 10:00 AM. A quorum was present as there were 11 members present and at least eight LTF members and one member from each chapter present. The agenda is Attachment A. The items from the agenda below were not necessarily all discussed in the order listed.

A list of the attendees is Attachment B. At the beginning of the meeting David Tieu announced that he would be leaving his normal practice of attending LTF meetings and providing input on the part of Orange County Waste and Recycling (OCWR) and that Mathew Harper from OCWR was on the call and would be attending meetings representing OCWR in the future. He noted he needed to leave this call, and discussed appreciating his experience contributing to the LTF.

RUMORS AND GOSSIP

Lisa Wood noted and the LTF discussed the following items listed below.

LTF meeting with Cal/EPA

Lisa Wood noted that LTF officers will be attending meeting next week with Cal/EPA. She asked that LTF members and participants send discussion points to her prior to the meeting. Mike Mohajer suggested that LTF white papers are still pertinent and could be sent to Cal/EPA prior to the meeting. It was discussed that white papers will be emailed by Lisa Wood to them about next Tuesday.

General Legislative Update

Jason Schmelzer noted that election years can be quiet in general in legislation but this year was fairly active. He expects a special session this year before the end of session to deal with budget issues if Proposition 30 is defeated.

BUSINESS ITEMS AND LTF ACTIVITIES

a) Approval of Minutes from August Phone Meeting

Lisa Wood asked for comments on these minutes. Mike Mohajer said that he had some non-substantive comments he could not recall, that he could email to Mark Urquhart later.

Motion:

A motion was made and seconded to approve the minutes from the August 2012 meeting and that Mike Mohajer will email non-substantive comments to Mark Urquhart for consideration in the final minutes. The motion carried, as all were in favor.

b) Treasurer's Report

Mark Bowers noted that all the accounts paperwork authority has been fully transferred to him. Mark Bowers noted that City of Clovis sent a check to LTF twice so Mark Bowers said that if someone has a contact there he would discuss with them sending a refund if that was not their intention.

Motion:

A motion was made and seconded to approve the August 2012 treasurer's report. The motion carried, as all were in favor.

c) Annual Meeting Logistics

Lisa Wood noted that the LTF annual workshop meeting is schedule for November 9 and 10, 2012. There will also be the usual optional dinner planned on evening of 8th for those interested that arrive early enough. Lisa Wood said she will book a block of rooms at the Bay Club with assistance from Shaw/Yoder/Antwih as they will help coordinate the meeting. Lisa Wood said she would start updating the LTF work plan to reduce word-smithing needed at the meeting. It was discussed that a table format for the work plan will be used for clarity.

LEGISLATIVE ITEMS

The following is a summary of the discussions of selected bills on the matrix, headed by Jason Schmelzer. He noted that the legislature has left Sacramento and some results on bills this session were unexpected.

a. **AB 298 (Brownley): Single Use Bags - Dead**

This bill was held in Senate Appropriations committee. Jason Schmelzer expects this bill may come back next year. He suggests that LTF might coordinate earlier and more with CAW on bills such as these where there is some common ground.

b. **AB 1834 (Brownley): Reusable Bags - Inactive File**

This bill was not considered and placed on the inactive file in view of other bag bills.

c. **SB 1219 (Pavley): Plastic Bags - Enrolled**

Jason Schmelzer expects the governor to sign this bill. Mike Mohajer discussed that this is good bill with a recent change helping local government.

Motion:

A motion was made and seconded to approve sending a letter of support to the governor to recommend him approving this bill. The motion carried, as all were in favor.

d. **SB 568 (Lowenthal): Polystyrene Food Containers - Refused passage**

Jason Schmelzer said this bill was soundly defeated. He feels it may come back next year.

e. **AB 812 (Ma): Solid waste: recycled asphalt - Enrolled—Support**

This bill was passed to governor and LTF will send a support letter to governor.

f. **AB 1442 (Wieckowski): Pharmaceutical waste. - Enrolled – Support**

This bill was passed to governor and LTF will send a support letter to governor.

- g. **AB 1647 (Gordon): Solid waste: waste tires: enforcement** - Enrolled—Support

This bill was [passed](#) to governor and LTF will send a support letter to governor.

- h. **AB 1831 (Dickinson): Local government: hiring practices** - Failed Deadline—Oppose

This bill opposed by the LTF failed.

- i. **AB 1900 (Gatto): Renewable energy resources** - Enrolled

(See also AB 2196 as they were discussed together) Jason Schmelzer discussed that this bill and related AN 2196 both passed and were sent to the governor for approval. The LTF yet does not have a position on this bill.

Jason Schmelzer asked if the LTF needs [to consider](#) a support letter or remaining neutral. Sharon Green said that it is hard to tell where the standards will end up. Los Angeles County Sanitation Districts (LASan) feels that there will still be a lot of barriers to projects in California. This bill as well as AB 2196 is mixed in terms of local government depending on future developments. William Merry discussed that LTF might be in favor as it could allow LFG into the pipeline within California. Chuck White urged the LTF support for this bill and AB 1900. It was generally discussed that most are positive provisions or potentially positive items for LFG projects. Chuck White noted that with the disallowance of Renewable Portfolio Standards for out-of-state gas, the bill would curtail those projects.

- j. **AB 2196 (Chesbro): Renewable energy resources**

- i. Enrolled

The LTF does not yet have a position on this bill (See also AB 1900). Sharon Green discussed that this make it more difficult for biomethane coming in from out of state. She said that it could have differing affects on in state projects.

Motion:

A motion was made and seconded to approve sending letters of support to the governor to recommend him approving both AB 2196 and AB 1900. The motion had one abstention (Mike Mohajer abstained he noted because AB 2196 would retain unreasonable standards regarding gasification projects). The motion carried as all others were in favor.

- k. **SB 964 (Wright): Administrative Procedure Act: State Water Resources Control Board and California regional water quality control boards.** - Dead—Support in Concept

Jason Schmelzer said this bill died early in year.

- l. **SB 965 (Wright): State Water Resources Control Board and California regional water quality control boards: ex parte communications**
Enrolled – Support

Jason Schmelzer said a support letter is being prepared and would be sent to the governor.

- m. **SB 1118 (Hancock): Solid waste: used mattresses.**

Dead—No position, the LTF initially had an Oppose position, however the LTF switched to a Support if Amended due to CPSC's position, and switched again to a No position due to additional amendments

Jason Schmelzer said this bill failed in senate but it may come back next year.

n. **AB 480 (Solorio): Captive Insurance - Enrolled – Oppose**

Jason Schmelzer said this bill was passed by 78 to 0 in the Senate. He expects the governor to sign the bill. Chuck White noted that the bill was worked out with governor and he suggested that the LTF should not send an oppose letter, as it may also bring up the issue of pledge of revenue issue. Lisa Wood said the regular course of action would be to send letter without a motion based on the prior adopted oppose position. However, given the discussion that ensued on the bill she decided to entertain a motion on the issue of whether the LTF should send and oppose letter to the governor.

Motion:

A motion was made and seconded to approve sending letters of opposition to the governor. The motion had three abstentions (Glenn Acosta, John Gullledge, and Chris Hanson). The motion carried as there was one nay vote and all others were in favor.

o. **AB 1178 (Ma): Solid Waste: Place of Origin - Dead – Oppose**

Jason Schmelzer noted this bill had died.

p. **AB 845 (Ma): Solid Waste Place of Origin - Enrolled – Oppose**

Jason Schmelzer said a support letter is being prepared and would be sent to the governor.

q. **AB 1634 (Chesbro) Solid waste large-quantity commercial organics
Dead- Opposed**

Jason Schmelzer noted this bill failed but it may come back as CalRecycle was involved.

r. **AB 2670 (Chesbro) Solid waste recycling, diversion, green materials
i. Hearing Cancelled—Opposed**

Jason Schmelzer discussed that this bill was pulled into rules committee and then did not move. It was discussed that this needs to be a topic with Cal/EPA in the meeting with the LTF next week.

REGULATORY MATTERS

a. WDR for Compost. Comments due before September 12, 2012.

Lisa Wood brought up number of issues including that the standards in the bill are too stringent and not based on science, for example percolation. It was discussed that environmental issues need to be addressed based on science given actual technology employed and site conditions. The LTF will send a letter of comments on the issue and input should be sent to Lisa Wood by next Tuesday.

b. Industrial General Permit, proposed changes by Kern County (See Attached).

Kern County put together a table sheet that was circulated to the LTF via email. Lisa Wood and Larry Sweetser discussed that more sampling will be required and even though some compliance

levels were reduced there is still instantaneous provisions and a lot of additional monitoring work will be required.

c. CalRecycle Five-Year Review

Lisa Wood and Larry Sweetser said there was some disagreement between LEAs and CalRecycle on the process. LEAs want to have the ability to have permit changes automatically be considered regarding the need for five-year reviews.

d. Department of Toxic Substances Control (DTSC) Safer Consumer Products

Larry Sweetser said that hearings are being held in this month (September). Jason Schmelzer noted that DTSC may have the authority to include producer responsibility in regulatory schemes.

Other

Larry Sweetser noted that DTSC is looking at mercury and mercury switch recovery. He said that they are considering including solar panels in universal waste category.

Lisa Wood noted that the issue of MRFing being considered equivalent to source separation is being debated at CalRecycle and a tricky issue. Glenn Acosta suggested that letters sent regarding this issue might be reviewed by LTF officer prior to Cal/EPA meeting to help frame the discussion.

ADJOURNMENT

The meeting was adjourned about 11:40 AM.

SWANA Legislative Task Force Meeting Agenda

September 6, 2012

Call in number 1-800-867-2581

Access# 1006105

II. Rumors and Gossip

- a. Thurs (Sept 13) the LTF officers will meet with Carroll and Matt. Provide input to Lisa.
- b. Jason to provide update on Budget, November Election, and Sacramento Politics.

III. Business Items

- a. Approval of August Meeting Minutes – (See Attached).
- b. Treasurer's Report: August – (pending)
- c. Discussion of Logistics of November 8 -10 Annual Meeting in San Diego to Develop 2013 Work Plan.

IV. Legislative Items

- a. **AB 298 (Brownley): Single Use Bags**
 - i. Dead
- b. **AB 1834 (Brownley): Reusable Bags**
 - i. Inactive File
- c. **SB 1219 (Pavley): Plastic Bags**
 - i. Enrolled
- d. **SB 568 (Lowenthal): Polystyrene Food Containers**
 - i. Refused passage
- e. **AB 812 (Ma): Solid waste: recycled asphalt**
 - i. Enrolled—Support
- f. **AB 1442 (Wieckowski): Pharmaceutical waste.**
 - i. Enrolled – Support
- g. **AB 1647 (Gordon): Solid waste: waste tires: enforcement**
 - i. Enrolled—Support
- h. **AB 1831 (Dickinson): Local government: hiring practices**
 - i. Failed Deadline—Oppose
- i. **AB 1900 (Gatto): Renewable energy resources**
 - i. Enrolled
- j. **AB 2196 (Chesbro): Renewable energy resources**

- i. Enrolled
- k. **[SB 964](#) (Wright): Administrative Procedure Act: State Water Resources Control Board and California regional water quality control boards.**
 - i. Dead—Support in Concept
- l. **[SB 965](#) (Wright): State Water Resources Control Board and California regional water quality control boards: ex parte communications**
 - i. Enrolled – Support
- m. **[SB 1118](#) (Hancock): Solid waste: used mattresses.**
 - i. Dead—No position, the LTF initially had an Opposed position, however the LTF switched to a Support if Amended due to CPSC’s position, and switched again to a No position due to additional amendments
- n. **[AB 480](#) (Solorio): Captive Insurance**
 - i. Enrolled – Oppose
- o. **[AB 1178](#) (Ma): Solid Waste: Place of Origin**
 - i. Dead – Oppose
- p. **[AB 845](#) (Ma): Solid Waste Place of Origin**
 - i. Enrolled – Oppose
- q. **[AB 1634](#) (Chesbro) Solid waste large-quantity commercial organics**
 - i. Dead- Opposed
- r. **[AB 2670](#) (Chesbro) Solid waste recycling, diversion, green materials**
 - i. Hearing Cancelled—Opposed

V. Regulatory Items

- a. WDR for Compost. Comments due before September 12, 2012.
- b. Industrial General Permit, proposed changes by Kern County (See Attached).
- c. CalRecycle Five-Year Review
- d. DTSC Safer Consumer Products

VI. To Do’s

- a. Jason: schedule meeting with Justin.
- b. Lisa: develop agenda for meeting with Carroll/Matt officers.
- c. Update on white paper – include “equivalent diversion.”

**Summary of Significant Changes
Current vs. Draft IGP**

Current Permit	Draft Permit
<i>Minimum Best Management Practices (BMPs)</i>	
No minimum set of BMPs required but allowed Dischargers to consider which BMPs to implement without any common standard.	Requires Dischargers to implement a set of minimum BMPs unless determined to be inapplicable, infeasible, or inappropriate.
<i>Conditional Exclusion - No Exposure Certification (NEC)</i>	
Mandated that light industries obtain coverage only if their activities were exposed to storm water.	Allows any type of industry to claim the conditional exclusion. The NEC requires enrollment for coverage but conditionally excludes Dischargers from a majority of the requirements.
<i>Electronic Reporting Requirements</i>	
Electronic reporting was an option; Dischargers could also use a paper reporting process.	Dischargers are required to submit and certify all reports via SMARTS, the State's electronic reporting system.
<i>Training Expectations and Roles</i>	
Does not include comprehensive training requirements. There is no clearly outlined Discharger training program.	<p>Requires each facility to have one staff person or outside personnel in charge of permit compliance trained as a Qualified Industrial Storm Water Practitioner (QISP). There are three levels of QISPs which allow for certain tasks to be performed.</p> <ul style="list-style-type: none"> • QISP I – Performs basic permit functions such as developing and implementing a SWPPP and monitoring required by the IGP. • QISP II – Performs more advanced permit functions and duties, such as preparing No Exposure Cert, Sampling Freq. Reduction Report, and Sampling Location Reduction Report. Can represent multiple facilities. • QISP III – Performs most advanced permit functions and duties and is designed for environmental professionals. Can represent multiple facilities. • Special provisions made for Professional Engineers and Geologists.

Numeric Action Levels (NALs) and NAL Exceedances	
No NAL	<p>Two Types of NALs:</p> <ol style="list-style-type: none"> 1. Annual NAL exceedance – occurs when the average of all analytical results for a parameter from samples taken within a reporting year exceeds an annual NAL value for that parameter; and 2. Instantaneous Maximum NAL exceedance - occurs when two or more analytical results for TSS, O&G, or pH from samples taken within the reporting year exceed the instantaneous maximum NAL value).
Exceedance Response Actions (ERA)	
No ERAs	<p>If NAL exceedance occurs within the reporting year, then the Discharger must establish ERAs.</p> <ul style="list-style-type: none"> • Level 1 ERAs are for the first occurrence of an exceedance of an NAL for any one parameter. • Level 2 ERAs are required following the second occurrence of an NAL exceedance for the same parameter in a subsequent reporting year.
Impairment and Total Maximum Daily Loads	
	<p>Requires Dischargers to monitor additional parameters if they contribute pollutants to receiving waters that are listed as impaired for those pollutants.</p>
Design Storm Standards for Treatment Control BMPs	
	<p>Dischargers are required to match design storm standards, both volume- and flow-based, when treatment control BMPs are utilized to reduce pollutants in runoff.</p>

Effluent Limitation Guidelines (ELG)	
No ELG	Industrial storm water discharges from facilities subject to storm water ELGs in Subchapter N shall not exceed those effluent limitations. The ELGs for industrial storm water discharges subject to Subchapter N are found in Attachment E of the IGP.
Qualifying Storm Event (QSE)	
Light Rain <0.25in./hr.; Moderate Rain 0.25 to 0.5 in./hr.; Heavy Rain > 0.5 in./24hr. Sampling of storm water discharge at a location is only required if there has been no storm water at that location during the preceding three working days.	<p>A QSE is one that:</p> <ul style="list-style-type: none"> • Has produced a minimum of 1/10th inch of rainfall within the preceding 24 hours as measured by an on-site rainfall measurement device; and • Was preceded by three consecutive days of dry weather. Dry weather is defined as 72 consecutive hours of less than 1/10th inch of rainfall measure by and on-site rainfall measurement device.
Sampling Protocols	
Dischargers shall collect grab samples during the first hour of discharge that commenced during scheduled facility operating hours.	<p>Dischargers are required to collect samples from each drainage location within four hours of:</p> <ol style="list-style-type: none"> 1. The start of the discharge from a QSE occurring during scheduled facility operating hours or 2. The start of scheduled facility operating hours if the QSE occurred in the previous twelve hours.
Sampling Frequency	
Facility operators shall collect storm water samples during the first hour of discharge from the first storm event of the wet season (Oct. 1 to May 30), and from at least one other storm event in the wet season.	Sampling must now be done during a QSE, once per quarter at each facility. Quarters are from January to March, April to June, July to September, and October to December.
Compliance Groups	
Group monitoring is allowed.	No Group Monitoring option under the New IGP.

<i>Pre-Storm Visual Observations</i>	
<p>Visual observations are required quarterly (within 6-18 weeks of each other), during daylight hours, on days with no storm water dischargers, and during scheduled facility operating hours.</p>	<p>Dischargers are required to visually observe the facility before every anticipated storm event ($\geq 50\%$ chance of rain) to locate and manage obvious pollutant sources. Also, pre-storm visual observations shall be performed to identify and correct potential pollutant storms before a storm event.</p>
<i>Indicator Parameters</i>	
<ul style="list-style-type: none"> • pH, TSS, O&G, TOC, and specific conductance testing is required. • Toxic chemicals and other pollutants that are likely to be present in storm water discharges in significant quantities. • Other parameters based on the facility's SIC code. • Other parameters as required by the RWQCB. 	<ul style="list-style-type: none"> • pH, TSS, and O&G are minimum parameters. • If water-soluble based organic oils are used, TOC testing may be required. • Additional site-specific analytical parameters based upon the types of materials exposed to and mobilized by contact with storm water. • Pollutants that may cause or contribute to an existing violations of any applicable water quality standard for the receiving water.
