Secretary	Chris Hanson, <i>Placer County</i>

SWANA Legislative Task Force Meeting Minutes

August 27, 2020

10 a.m. – 12:00 p.m.

Via Zoom

1. Administrative Items (10:00 – 10:45 a.m.)

- a. Roll Call, Introductions - See attached attendance roster; a quorum was present. One guest, Deepti Jain, joined the call.
- b. Approval of July Minutes – Chris Hanson presented the July minutes. Mike Mohajer requested a grammatical edit to Item 2.d. and that the final Protocol be attached to the final minutes. A motion was made, seconded, and passed to approve the July minutes with the requested changes.
- c. Approval of July Treasurer’s Report - Hans Kernkamp presented the July treasurer’s report, reporting a beginning balance of \$54,032.03 and revenues of \$11,020.45 from agency contributions, interest, and SWANA dues surcharges. Expenses posted totaled \$4,833.90 for SYASL monthly services and meeting expenses (website expenses incurred in July were posted in August), resulting in an ending balance of \$60,219.39, which matches the bank statement. A motion was made, seconded, and passed to approve the July Treasurer’s Report.
- d. Annual Meeting – Update – Lisa Wood gave an update on the annual meeting planning. Priscilla confirmed that SYASL can host the meeting via Zoom and has already sent out a calendar holds for members reserving blocks of time over three half days – Wednesday, November 18th through Friday, November 20th - rather than two longer days, to minimize virtual meeting fatigue. The group agreed to continue discussing during monthly meetings and refine the time blocks as we get closer.
- e. 2021 Work Plan – Lisa provided an update on the draft Work Plan, noting that she has updated the document and the officers have reviewed it. She recently emailed the draft to the LTF members and is asking for comments by the next monthly meeting. The group commended Lisa on her efforts.
- f. Coalition Letter re SB 1383 – Eric Zetz shared that he received a solicitation from grass roots coalition of jurisdictions in southern California that are seeking changes to the SB 1383 regulation. If any LTF members are interested in signing on, they can contact Jane-Marie Fajardo at the City of San Diego.

2. Legislative Review (10:45 a.m. – 11:38 a.m.) – Priscilla reminded the group that there are only four days left in the Legislation session. One Senator has tested positive for COVID. The Senate leader indicated their goal is to move forward with bills on consent or that have an Aye recommendation from the Republican coalition. While they cannot move the end of session date; there is an option for a “special session” that would have to be called by the Governor. Priscilla reported on the status of bill the LTF is tracking:

- a. AB 793 (Ting) Solid Waste: Minimum Recycled Content
 - I. Support
 - II. Author’s office made amendments to address gov concerns; likely to go through.

LEGISLATIVE ADVOCATE

Priscilla Quiroz

Shaw Yoder Antwih Schmelzer & Lange • 1415 L Street, Suite 1000, Sacramento, CA 95814 • (916) 446-4656 • Fax (916) 446-4318

- b. AB 995 (C. Garcia) Hazardous Waste
 - I. On the Floor
 - II. The bill was amended on 25th incorporating changes requested by the Governor's office. Priscilla emailed the LTF the RCRC/CSAC letter of concern related to potential for increases in costs for facilities. Chuck White explained some of the fee changes on facilities and generators and noted that the EPA ID number fee, manifest fees, and disposal fees are deleted. It was mentioned that there are industry concerns that fee increases will result in illegal disposal. Chuck reported there is a lot of support for the bill in the Legislature and it is very likely to pass. Larry Sweetser further discussed the ramifications of the fee increases including to used oil centers, resulting in less incentive for auto shops to accept used oil. After more discussion, Eric Zetz suggested that a letter be drafted, similar to RCRC/CSAC letter, but expanded to address the concerns discussed among the group. A motion was made, seconded, and passed to submit a Letter of Concern. Chuck White abstained from the vote.

- c. AB 1080 Gonzalez/SB 54 (Allen) California Circular Economy and Plastic Pollution Reduction Act
 - I. Watch
 - II. Both bills were significantly amended recently, focusing on plastic packaging and single use plastic food containers. There is a strong push by the author's offices to get this passed this year. Doug Kobold shared that CPSC has gone back to a support position because author's office addressed their concerns, including pulling out CRV items from the bill. The group agreed to continue with watch position.

- d. AB 1672 (Bloom) Solid waste: flushable products.
 - I. Support
 - II. Died in Senate Appropriations (unrelated to substance of the bill). Intention is to bring this bill back again next year.

- e. AB 2287 (Eggman) Solid waste: plastic product certification
 - I. Support
 - II. Bill is moving forward.

- f. AB 2920 (Obernolte) Hazardous waste: transportation: consolidated manifesting procedures.
 - I. Watch
 - II. Bill is moving forward.

- g. AB 2959 (Calderon) Solid waste: byproducts from the processing of food or beverages.
 - I. Watch
 - II. Dead; did not get heard in Senate policy committee.

- h. AB 3163 (Salas) Energy: biomethane: procurement
 - I. Support
 - II. The bill is moving forward. It does have opposition and a Floor Alert is being generated.

- i. SB 68 (Galgiani) Hazardous waste: treated wood waste
 - I. Support
 - II. It appears the bill is moving forward. Will extend the sunset indefinitely. The LTF asked Priscilla to submit a Floor Alert in support.
- j. SB 667 (Hueso) GHG: Recycling infrastructure and facilities
 - I. Support if amended
 - II. Not moving forward at author's request (unclear of the reason).
- k. SB 1156 (Archuleta) Lithium-ion batteries: illegal disposal: penalties.
 - I. Support
 - II. Still moving forward; on Assembly floor. No opposition on file.

3. Budget (11:38-11:40 a.m.)

- a. DTSC Reform – discussed in Garcia bill above.
- b. GGRF
 - I. Priscilla reported that Cap and Trade auctions were very low and is not aware of any allocations that will be made. Chuck White heard that \$30M maybe allocated for some organic programs and \$5M for edible food recovery.

4. Regulatory Update (11:40- 12:06 p.m.)

- a. SB 1383
 - I. Priscilla reported that CalRecycle's goal is to resubmit the regulation package to OAL by end of summer. SYASL staff is taking notes at all CalRecycle meetings on the regulation. SYASL will continue to provide updates to CalRecycle and Governor's office on the COVID impacts. There are rumors about another bill similar to SB 1191 being introduced next year.
 - II. The group discussed the SB 1383 Analysis Report including CalRecycle's position that the procurement requirements are necessary and opinion that there are no permitting issues. Frank Caponi shared some air district permitting challenges his agency is facing and recommended that such challenges be communicated to CalRecycle so they are better informed of such issues. Mike Mohajer indicated that the Report needs to be expanded to include the issue of the "good faith" efforts as well as provisions for alternative conversion technologies.
- b. Statewide Commission on Recycling Markets and Curbside Recycling
 - I. Priscilla shared that SYASL staff are following these meetings and taking notes. Committees are just getting started, gathering data and feedback, and looking for policy recommendations from stakeholders.

c. SB 212

- I. Priscilla shared that regulations were released on August 21 and September 4 is the deadline for comments. Doug shared that recent revisions resolved CPSC's' final concerns and CPSC now fully supports.

The meeting adjourned at 12:06 pm.

Respectfully:

Christina Hanson, Secretary

SWANA 2019-20 Legislation as of Wednesday, August 26, 2020

Bill ID/Topic	Location	Summary	Position
<p>AB 793 Ting D</p> <p>Recycling: plastic beverage containers: minimum recycled content.</p>	<p>SENATE SECOND READING 8/25/2020 - Read third time and amended. Ordered to second reading. 8/26/2020 #7 SENATE ASSEMBLY BILLS - SECOND READING FILE</p>	<p>(1)The California Beverage Container Recycling and Litter Reduction Act requires every beverage container sold or offered for sale in this state to have a minimum refund value. Under the act, the Department of Resources Recycling and Recovery is required to calculate a processing fee for each beverage container with a specified scrap value, which is required to be paid by beverage manufacturers for each beverage container sold or transferred to a distributor or dealer. This bill, on and after January 1, 2022, would require the total number of plastic beverage containers filled with a beverage sold by a beverage manufacturer, as specified, to contain, on average, specified amounts of postconsumer recycled plastic content per year pursuant to a tiered plan that would require the total number of plastic beverage containers to contain, on average, no less than 50% postconsumer recycled plastic content per year on and after January 1, 2030, except as specified. This bill contains other related provisions and other existing laws. Last Amended on 8/25/2020</p>	<p>Support</p>
<p>AB 995 Garcia, Cristina D</p> <p>Hazardous waste.</p>	<p>SENATE SECOND READING 8/25/2020 - Read third time and amended. Ordered to second reading. 8/26/2020 #35 SENATE ASSEMBLY BILLS - SECOND READING FILE</p>	<p>(1)Existing law provides that the Department of Toxic Substances Control regulates the handling and management of hazardous substances, materials, and waste. Existing law requires the department to, among other things, issue hazardous waste facilities permits to facilities handling hazardous waste and to enforce the requirements of the hazardous waste control laws. This bill would create the Board of Environmental Safety in the California Environmental Protection Agency. The bill would provide requirements for the membership of the board and would require the board to conduct no less than 6 public meetings per year. The bill would provide for the duties of the board, which would include, among others, reviewing specified policies, processes, and programs within the hazardous waste control laws; proposing statutory, regulatory, and policy changes; and hearing and deciding appeals of hazardous waste facility permit decisions and certain financial assurance decisions. The bill would establish an office of ombudsperson in the board to receive complaints and suggestions, to evaluate complaints received, to report findings and make recommendations to the Director of Toxic Substances Control and the board, and to render assistance. This bill contains other related provisions and other existing laws. Last Amended on 8/25/2020</p>	
<p>AB 1080 Gonzalez D</p> <p>Solid waste: packaging and products.</p>	<p>SENATE SECOND READING 8/25/2020 - Read third time and amended. Ordered to second reading. 8/26/2020 #11</p>	<p>(1)The California Integrated Waste Management Act of 1989, administered by the Department of Resources Recycling and Recovery, generally regulates the disposal, management, and recycling of solid waste, including, among other solid waste, single-use plastic straws. This bill would enact the California Circular Economy and Plastic Pollution Reduction Act, which would impose a comprehensive regulatory scheme on producers, retailers, and wholesalers of single-use packaging, as defined, and priority single-use products, as defined, made partially or entirely of plastic, to be administered by the department. As part of that regulatory scheme, the bill would require producers, as defined, (A) to source reduce, to the maximum extent feasible, single-use packaging and priority single-use products, and (B) to ensure that all single-use packaging and priority single-use products that are manufactured on or after January 1, 2032, and that are offered for sale, sold, distributed, or imported in or into the state are recyclable or compostable. The bill would</p>	<p>Watch</p>

	<p>SENATE ASSEMBLY BILLS - SECOND READING FILE</p>	<p>require the department to achieve and maintain, by January 1, 2032, a statewide 75% reduction of the waste generated from single-use packaging and priority single-use products offered for sale, sold, distributed, or imported in or into the state through source reduction, recycling, or composting. The bill would require the department, by January 1, 2025, to adopt regulations to implement the act and, before adopting the regulations, to conduct extensive outreach, as prescribed, and to identify and evaluate specified provisions for potential inclusion in the regulations. The bill would require the department to establish a Circular Economy and Waste Pollution Reduction Panel for the purpose of identifying barriers and solutions to creating a circular economy consistent with the act. The regulatory scheme would include, among other requirements, registration, reporting, and recordkeeping requirements. The bill would require reports and data provided to the department pursuant to the act to be accurate and attested to under penalty of perjury, thereby imposing a state-mandated local program by expanding the crime of perjury. The bill would prohibit a retailer or wholesaler, as defined, from offering for sale or selling single-use packaging, products packaged in single-use packaging, or priority single-use products if the producer of the single-use packaging or priority single-use product is listed as noncompliant for that packaging or product category on the department’s internet website on a list that the bill would require the department to post, as specified. The bill would prohibit certain online marketplaces, upon notification from the department, from allowing on the online marketplaces the offering for sale, sale, or distribution into the state of single-use packaging, a product packaged in single-use packaging, or a priority single-use product if the product or packaging is identified as noncompliant with the act in the notice provided by the department. This bill contains other related provisions and other existing laws. Last Amended on 8/25/2020</p>	
<p>AB 1672 Bloom D</p> <p>Solid waste: premoistened nonwoven disposable wipes.</p>	<p>SENATE DEAD 8/21/2020 - Failed Deadline pursuant to Rule 61(b)(15). (Last location was S. APPR. SUSPENSE FILE on 8/17/2020)</p>	<p>The California Integrated Waste Management Act of 1989, administered by the Department of Resources Recycling and Recovery, generally regulates the disposal, management, and recycling of solid waste. This bill would require, except as provided, certain premoistened nonwoven disposable wipes manufactured on or after January 1, 2022, to be labeled clearly and conspicuously with the phrase “Do Not Flush” and a related symbol, as specified. The bill would prohibit a covered entity, as defined, from making a representation about the flushable attributes, benefits, performance, or efficacy of those premoistened nonwoven disposable wipes, as provided. The bill would establish enforcement provisions, including authorizing a civil penalty not to exceed \$2,500 per day, up to a maximum of \$100,000 per violation, to be imposed on a covered entity who violates those provisions. This bill contains other related provisions. Last Amended on 7/9/2020</p>	<p>Support</p>
<p>AB 2104 Garcia, Cristina D</p> <p>Lead-Acid Battery Recycling Act of 2016.</p>	<p>SENATE SECOND READING 8/25/2020 - Read third time and amended. Ordered to second reading. 8/26/2020 #6 SENATE ASSEMBLY BILLS -</p>	<p>The Lead-Acid Battery Recycling Act of 2016 prohibits a person from disposing, or attempting to dispose, of a lead-acid battery at a solid waste facility or on or in any land, surface waters, watercourses, or marine waters, and authorizes a person to dispose of a lead-acid battery only at certain locations. The act imposes a manufacturer battery fee on a manufacturer of lead-acid batteries for each lead-acid battery it sells at retail to a person in California, or that it sells to a dealer, wholesaler, distributor, or other person for retail sale in California. This bill would exclude from the definition of “lead-acid battery recycling facility” a facility that incidentally processes lead-acid batteries. The bill would authorize moneys in the fund to be available upon appropriation by the Legislature for the repayment of loans made for additional specified activities for which direct expenditure from the fund is authorized under existing law, as provided. The bill would require that moneys be expended for the repayment of those loans only after additional specified activities related to the former Exide Technologies lead-acid battery recycling facility in the City of Vernon, for which expenditure from the fund is authorized under existing law, have been fully funded in a given fiscal year. The bill would revise to apply</p>	

	SECOND READING FILE	retroactively to September 26, 2016, the authorization to expend moneys in the fund for those activities related to the former Exide Technologies lead-acid battery recycling facility in the City of Vernon.This bill contains other related provisions and other existing laws. Last Amended on 8/25/2020	
AB 2285 Committee on Transportation Transportation.	SENATE THIRD READING 8/24/2020 - Read second time. Ordered to third reading. 8/26/2020 #154 SENATE ASSEMBLY BILLS - THIRD READING FILE	(1)The California Global Warming Solutions Act of 2006 designates the State Air Resources Board as the state agency charged with monitoring and regulating sources of emissions of greenhouse gases. The act authorizes the state board to include the use of market-based compliance mechanisms. Existing law requires all moneys, except for fines and penalties, collected by the state board as part of a market-based compliance mechanism to be deposited in the Greenhouse Gas Reduction Fund and to be available upon appropriation by the Legislature.This bill would extend the requirement that 20% of that funding be made available for that same purpose until December 31, 2021. This bill contains other related provisions and other existing laws. Last Amended on 8/20/2020	
AB 2287 Eggman D Solid waste.	SENATE THIRD READING 8/24/2020 - Read second time. Ordered to third reading. 8/26/2020 #155 SENATE ASSEMBLY BILLS - THIRD READING FILE	(1)Existing law prohibits a person from selling a plastic product in the state that is labeled with the term “compostable,” “home compostable,” or “marine degradable” unless, at the time of sale, the plastic product meets the applicable ASTM standard specification or the Vincotte OK Compost HOME certification, as provided. Existing law prohibits the sale of a plastic product that is labeled as “biodegradable,” “degradable,” or “decomposable,” and prohibits implying that a plastic product will break down, fragment, biodegrade, or decompose in a landfill or other environment, unless the plastic product meets one of several specified standards relating to environmental marketing claims. This bill would repeal the provision that conditionally prohibits the sale of a plastic product that is labeled “marine degradable.” The bill would authorize the Director of Resources Recycling and Recovery to issue guidelines for determining whether a plastic product is not compliant with these labeling requirements, and whether a plastic product is designed, pigmented, or advertised in a manner that is misleading to consumers. The bill would authorize the Department of Resources Recycling and Recovery to adopt the European Committee for Standardization’s standard specification for biodegradable mulch film plastic, or a standard that is equivalent to, or more stringent than, that standard, as specified. The bill would authorize the sale of commercial agricultural mulch film, as defined, labeled with the term “soil biodegradable” only if the department adopts the European Committee for Standardization’s standard specification, or an equivalent or more stringent standard, and the commercial agricultural mulch film is certified to meet both that standard and the ASTM standard specification for compostability. The bill would update the name of a specified certification for home compost, the name of the organization that developed that certification, and the names of two ASTM standard specifications, and would make other conforming changes.This bill contains other related provisions and other existing laws. Last Amended on 8/20/2020	Support
AB 2920 Obernolte R Hazardous	SENATE CONSENT CALENDAR 8/25/2020 - Ordered to	Existing law, as part of the hazardous waste control laws, imposes various manifest requirements for transporting hazardous waste, including, among others, requiring any person generating hazardous waste that is transported, or submitted for transportation, for offsite handling, treatment, storage, disposal, or any combination thereof, to complete a manifest and be subject to transporter registration requirements. Existing law authorizes transporters and generators	Watch

<p>waste: transportation: consolidated manifesting procedure.</p>	<p>special consent calendar. 8/26/2020 #27 0 SENATE SPECIAL CONSENT CALENDAR NO. 25</p>	<p>to use a consolidated manifesting procedure for certain kinds of waste if specified requirements are met. A violation of the hazardous waste control laws is a crime. This bill would authorize the consolidated manifesting procedure to be used additionally for retail hazardous waste, as defined, collected from a retailer engaged in business in the state. The bill would require, when using the consolidated manifesting procedure for retail hazardous waste, that incompatible materials transported in the same transport vehicle be managed pursuant to specified provisions that govern the transportation of hazardous waste. By expanding the application of the requirements governing the use of the consolidated manifesting procedure to additional kinds of waste and by imposing additional requirements for the management of retail hazardous waste, the bill would impose a state-mandated local program. This bill contains other related provisions and other existing laws. Last Amended on 6/29/2020</p>	
<p>AB 3163 Salas D Energy: biomethane: procurement.</p>	<p>SENATE THIRD READING 8/20/2020 - From committee: Do pass. (Ayes 7. Noes 0.) (August 20). Read second time. Ordered to third reading. 8/26/2020 #123 SENATE ASSEMBLY BILLS - THIRD READING FILE</p>	<p>Under existing law, the Public Utilities Commission has regulatory authority over public utilities, including gas corporations. Existing law requires the commission, in consultation with the State Air Resources Board, to consider adopting specific biomethane procurement targets or goals for each gas corporation so that each gas corporation procures a proportionate share, as determined by the commission, of biomethane annually, as specified. Existing law defines "biomethane" for that purpose as biogas that meets specified standards adopted by the commission for injection into a common carrier pipeline. This bill would instead define "biomethane" for that purpose as methane produced from an organic waste feedstock, rather than biogas, that meets those specified standards and is either produced from the anaerobic decomposition of organic material or produced from the noncombustion thermal conversion of specified materials. Under existing law, a violation of the Public Utilities Act or an order, decision, rule, direction, demand, or requirement of the commission is a crime. Because the provisions of this bill would be a part of the act and because a violation of an order, decision, rule, direction, demand, or requirement of the commission implementing its requirements would be a crime, the bill would impose a state-mandated local program. This bill contains other existing laws. Last Amended on 5/5/2020</p>	Support
<p>SB 45 Allen D Wildfire Prevention, Safe Drinking Water, Drought Preparation, and Flood Protection Bond Act of 2020.</p>	<p>ASSEMBLY DESK 1/30/2020 - In Assembly. Read first time. Held at Desk.</p>	<p>The California Drought, Water, Parks, Climate, Coastal Protection, and Outdoor Access For All Act of 2018, approved by the voters as Proposition 68 at the June 5, 2018, statewide primary direct election, authorizes the issuance of bonds in the amount of \$4,100,000,000 pursuant to the State General Obligation Bond Law to finance a drought, water, parks, climate, coastal protection, and outdoor access for all program. This bill would enact the Wildfire Prevention, Safe Drinking Water, Drought Preparation, and Flood Protection Bond Act of 2020, which, if approved by the voters, would authorize the issuance of bonds in the amount of \$5,510,000,000 pursuant to the State General Obligation Bond Law to finance projects for a wildfire prevention, safe drinking water, drought preparation, and flood protection program. This bill contains other related provisions. Last Amended on 1/23/2020</p>	Support if Amended

<p>SB 54 Allen D</p> <p>Solid waste: packaging and products.</p>	<p>ASSEMBLY THIRD READING 8/25/2020 - Assembly Rule 78 suspended. From inactive file. Ordered to third reading. Read third time and amended. Ordered to third reading.</p> <p>8/26/2020 #12 1 ASSEMBLY THIRD READING FILE - SENATE BILLS</p>	<p>(1)The California Integrated Waste Management Act of 1989, administered by the Department of Resources Recycling and Recovery, generally regulates the disposal, management, and recycling of solid waste, including, among other solid waste, single-use plastic straws.This bill would enact the California Circular Economy and Plastic Pollution Reduction Act, which would impose a comprehensive regulatory scheme on producers, retailers, and wholesalers of single-use packaging, as defined, and priority single-use products, as defined, made partially or entirely of plastic, to be administered by the department. As part of that regulatory scheme, the bill would require producers, as defined, (A) to source reduce, to the maximum extent feasible, single-use packaging and priority single-use products, and (B) to ensure that all single-use packaging and priority single-use products that are manufactured on or after January 1, 2032, and that are offered for sale, sold, distributed, or imported in or into the state are recyclable or compostable. The bill would require the department to achieve and maintain, by January 1, 2032, a statewide 75% reduction of the waste generated from single-use packaging and priority single-use products offered for sale, sold, distributed, or imported in or into the state through source reduction, recycling, or composting. The bill would require the department, by January 1, 2025, to adopt regulations to implement the act and, before adopting the regulations, to conduct extensive outreach, as prescribed, and to identify and evaluate specified provisions for potential inclusion in the regulations. The bill would require the department to establish a Circular Economy and Waste Pollution Reduction Panel for the purpose of identifying barriers and solutions to creating a circular economy consistent with the act. The regulatory scheme would include, among other requirements, registration, reporting, and recordkeeping requirements. The bill would require reports and data provided to the department pursuant to the act to be accurate and attested to under penalty of perjury, thereby imposing a state-mandated local program by expanding the crime of perjury. The bill would prohibit a retailer or wholesaler, as defined, from offering for sale or selling single-use packaging, products packaged in single-use packaging, or priority single-use products if the producer of the single-use packaging or priority single-use product is listed as noncompliant for that packaging or product category on the department’s internet website on a list that the bill would require the department to post, as specified. The bill would prohibit certain online marketplaces, upon notification from the department, from allowing on the online marketplaces the offering for sale, sale, or distribution into the state of single-use packaging, a product packaged in single-use packaging, or a priority single-use product if the product or packaging is identified as noncompliant with the act in the notice provided by the department.This bill contains other related provisions and other existing laws. Last Amended on 8/25/2020</p>	<p>Watch</p>
<p>SB 68 Galgiani D</p> <p>Hazardous waste: treated wood waste.</p>	<p>ASSEMBLY THIRD READING 8/25/2020 - Assembly Rule 78 suspended. From inactive file. Ordered to third reading. Read third time and amended. Ordered to third reading.</p>	<p>Existing law, as part of the hazardous waste control laws, requires treated wood waste to be disposed of in either a class I hazardous waste landfill or in a composite-lined portion of a solid waste landfill unit that meets specified requirements. Existing law requires each wholesaler and retailer of treated wood and treated wood-like products to conspicuously post information that contains a specified message, including a certain internet website address at which more information can be found, at or near the point of display or customer selection of treated wood and treated wood-like products, as provided. Existing law requires the wood preserving industry, as defined, to, jointly and in consultation with the Department of Toxic Substances Control, make information available to generators of treated wood waste that describes how to best handle, dispose of, and otherwise manage treated wood waste. Existing law repeals these requirements on January 1, 2021. A violation of the hazardous waste control laws is a crime.This bill would extend the operation of those provisions, as recast by this bill, indefinitely. By extending a crime, the bill would impose a state-mandated local program. The bill would authorize the message to be posted at the point of sale, in addition to at the point of display or customer selection. The bill would update in the message the internet website address at which more information can be found</p>	<p>Support</p>

	8/26/2020 #118 ASSEMBLY THIRD READING FILE - SENATE BILLS	and would require the message to include an additional specified statement relating to the internet website at which the list of approved landfills that accept treated wood waste can be found. This bill contains other related provisions and other existing laws. Last Amended on 8/25/2020	
SB 667 Hueso D Greenhouse gases: recycling and organic waste reduction: needs assessment.	ASSEMBLY THIRD READING 8/25/2020 - Read second time. Ordered to third reading. 8/26/2020 #86 ASSEMBLY THIRD READING FILE - SENATE BILLS	Existing law requires the State Air Resources Board, no later than January 1, 2018, to approve and begin implementing a comprehensive short-lived climate pollutant strategy to, among other things, achieve a reduction in the statewide emissions of methane by 40% below 2013 levels by 2030. As part of that methane emissions reduction goal, existing law establishes a target to reduce organic waste in landfills by 75% below 2014 levels by 2025. The California Integrated Waste Management Act of 1989 declares that it is the policy goal of the state that not less than 75% of solid waste generated be source reduced, recycled, or composted by the year 2020, and annually thereafter. This bill would require the Department of Resources Recycling and Recovery to develop, on or before January 1, 2023, and would authorize the department to amend, a 5-year needs assessment to support innovation and technological and infrastructure development, in order to meet the above-mentioned organic waste reduction and recycling targets, as provided. Last Amended on 8/24/2020	Support
SB 895 Archuleta D Energy: zero-emission fuel, infrastructure, and transportation technologies.	ASSEMBLY THIRD READING 8/24/2020 - Read second time. Ordered to third reading. 8/26/2020 #54 ASSEMBLY THIRD READING FILE - SENATE BILLS	Existing law requires the State Energy Resources Conservation and Development Commission, within the limits of available funds, to provide technical assistance and support for the development of petroleum diesel fuels that are as clean or cleaner than alternative clean fuels and clean diesel engines. This bill would instead require the commission, within the limits of available funds, to provide technical assistance and support for the development of zero-emission fuels, zero-emission fueling infrastructure, and zero-emission fuel transportation technologies.	
SB 1044 Allen D Firefighting equipment and foam: PFAS chemicals.	ASSEMBLY THIRD READING 8/25/2020 - Read second time. Ordered to third reading. 8/26/2020 #97 ASSEMBLY THIR	Existing law authorizes the State Fire Marshal to make such changes as may be necessary to standardize all existing fire protective equipment throughout the state and requires the State Fire Marshal to notify industrial establishments and property owners having equipment for fire protective purposes of the changes necessary to bring their equipment into conformity with standard requirements. This bill, commencing January 1, 2022, would require any person, as defined, including a manufacturer, as defined, that sells firefighter personal protective equipment to any person to provide a written notice to the purchaser at the time of sale if the firefighter personal protective equipment contains intentionally added perfluoroalkyl and polyfluoroalkyl substances (PFAS). The bill would require the seller and the purchaser to retain a copy of the written notice on file for at least 3 years and to furnish the notice and associated sales documentation to the Attorney General, a city attorney, a county counsel, or a district attorney within 60 days upon request, as provided.	

	<p>D READING FILE - SENATE BILLS</p>	<p>The bill would authorize the Attorney General, a city attorney, a county counsel, or a district attorney to request from a manufacturer, and the bill would require the manufacturer to provide, a certificate of compliance that certifies that the manufacturer is in compliance with these provisions. The bill would provide that a violation of these requirements is punishable by a specified civil penalty upon an action brought by the Attorney General, a city attorney, a county counsel, or a district attorney. This bill contains other related provisions. Last Amended on 8/24/2020</p>	
<p>SB 1156 Archuleta D</p> <p>Lithium-ion batteries: illegal disposal: fire prevention.</p>	<p>ASSEMBLY THIR RD READING 8/25/2020 - Read second time. Ordered to third reading. 8/26/2020 #10 4 ASSEMBLY TH IRD READING FILE - SENATE BILLS</p>	<p>The Rechargeable Battery Recycling Act of 2006 requires every retailer, as defined, to have in place a system for the acceptance and collection of used rechargeable batteries, defined to include lithium-ion batteries, for reuse, recycling, or proper disposal. The act requires the system for the acceptance and collection of used rechargeable batteries to include, at a minimum, specified elements, including, among others, the take-back of a used rechargeable battery at no cost to the consumer. This bill would prohibit a person from knowingly disposing of a lithium-ion battery in a container or receptacle that is intended for the collection of solid waste or recyclable materials, unless the container or receptacle is designated for the collection of batteries for recycling, as provided. This bill contains other related provisions and other existing laws. Last Amended on 8/24/2020</p>	<p>Support</p>
