

Chair	Doug Kobold, <i>California Product Stewardship Council</i>
Vice Chair	Chris Hanson, <i>Placer County</i>
Treasurer	Hans Kernkamp, <i>Riverside County</i>
Secretary	Herb Cantu, <i>City of Santa Maria</i>

SWANA Legislative Task Force Meeting Minutes

February 1, 2021

2:00 p.m. – 4:00 p.m. Zoom Meeting

1. Administrative Items (2:00 p.m. – 2:30 p.m.)

- a. Roll Call, Introductions
 - The LTF Meeting was called to order at 2:03 p.m. Mrs. Hanson confirmed a quorum was present.
- b. Election of Officers
 - Chair – A motion was made to nominate Doug Kobold as Chair. The motion was seconded and passed. Mr. Kobold abstained from the vote.
 - Vice Chair – Doug Kobold nominated Chris Hanson as Vice Chair. A motion was made, seconded, and passed to appoint Mrs. Hanson as Vice Chair. Mrs. Hanson abstained from the vote.
- c. Appointment of Treasurer & Secretary
 - Chair, Doug Kobold appointed Hans Kernkamp as Treasurer and Herb Cantu as Secretary
- d. Approval of November Minutes
 - No comments were made to the November 2020 Minutes. A motion was made, seconded, and passed to approve the minutes.
- e. Approval of November and December Treasurer's Report
 - Hans Kernkamp reviewed the revenues, expenses and cash balances for November and December 2020. The following data below was summarized.
 - November 2020 Financials
 - a. Revenue - \$1,507.25
 - b. Expenses - \$8,914.5
 - c. Ending Cash Balance - \$52,705.03
 - December 2020 Financials
 - a. Revenue - \$1,170.43
 - b. Expenses - \$4,457.25
 - c. Ending Cash Balance - \$49,418.21
 - The LTF ended the 2020 calendar year with a loss of \$6,934, largely attributed to not receiving revenue from the Western Regional Symposium and MOLO training (\$17,000). The revenue loss was partially offset by higher than budgeted jurisdictional contributions and reduced budgeted expenses resulting from eliminating the in-person member meeting.

Mr. Zetz stated this is the first year the LTF did not received revenue from symposium or MOLO contributions. Mr. Kernkamp stated he will focus in 2021 on jurisdictions who have contributed in the past and are not currently contributing to the LTF.

A motion was made, seconded, and passed to approve the Treasurer's Reports.

LEGISLATIVE ADVOCATE

Priscilla Quiroz

2. Legislative Review/Capitol Update (2:30 p.m. – 3:30 p.m.)

Miss Quiroz provided an update on new appointments in Sacramento and that February 19, 2021 is the deadline for bill introductions.

- a. AB 1 (C. Garcia) Hazardous waste – Reform of last year DTSC bill AB 995. Still does not address concerns governor pointed out. This bill will continue to be monitored.
- b. AB 96 (O'Donnell) California Clean Truck, Bus, and Off-Road Vehicle and Equipment Technology Program – No discussion was had on this item.
- c. AB 246 (Quirk) Contractors: disciplinary actions. – Existing law provides for the licensure and regulation of contractors by the Contractors' State License Board. This bill would reorganize these provisions and would add illegal dumping to the list of violations that constitute a cause for disciplinary action against a contractor by the Board.
- d. AB 332 (ESTM) Treated Wood Waste – Bill developed to address the veto of the last year SB 68. This is an urgency bill in its early stages that will require revisions and updates to the language. The LTF is working closely with DTSC and other stakeholders to determine a long-term solution. Miss Quiroz would like the LTF to give her authority to continue have discussions on AB 332 on behalf of the LTF. A motion was made, seconded, and passed to support the bill and grant Miss Quiroz the authority to continue discussions.
- e. AJR 4 (C. Garcia) Basel Convention: ratification – No discussion was had on this item.
- f. SB 38 (Wieckowski) Beverage containers – Re-introduction of SB 372. This bill still to be developed and refined.
- g. SB 42 (Wieckowski) Department of Toxic Substances Control: Board of Environmental Safety. – No discussion was had on this item.
- h. SB 54 (Allen) Solid waste: disposable packaging and food ware – This is an intent bill. It is unclear what the language will entail.
- i. SB 207 (Dahle) Photovoltaic Recycling Advisory Group – The goal of this bill is to create an advisory group to provide recommendations to the Legislature for the management of PV panels to ensure they are recycled. It is anticipated that in 2025 many of the first and second generation PV panels will have exceeded their useful life.
- j. SB 244 (Archuleta) Lithium-ion batteries: illegal disposal: fire prevention. – Requires CalRecycle in collaboration with DTSC to provide guidance on proper disposal of Lithium-ion batteries.

3. Upcoming Legislation (3:25 p.m. - 3:45 p.m.)

- a. SB 1383 Relief – There is an effort to delay the implementation of SB 1383. The League of California Cities, RCRC, and LA County are in discussion to obtain additional time to meet the requirements of SB 1383. It is anticipated draft language will request delaying the implementation and enforcement by 1 year. Draft language is not currently available for review.

- b. SB 289 - CAW, CPSC, and ReThink Waste are co-sponsoring the bill, with consultation by CalRecycle, to address disposal of all household and imbedded batteries. Mr. LaMariana mentioned that Senator Josh Newman will be the bill author, along with principal co-authors Assembly Members Mullin & Berman, and that the group is working on obtaining additional co-authors for the bill.

- 4. **CEQA Issue (3:55 p.m. – 4:00 p.m.)** Mr. Larkin mentioned that, in San Luis Obispo County, requirements for CEQA are being considered for the development domestic wells. Miss Quiroz is currently not aware of any bills requiring CEQA for development of domestic wells.

- 5. **Budget (3:52 p.m. – 3:54 p.m.)** Miss Quiroz mentioned there is currently a \$15 Billion surplus in the state budget. She did not see anything on GGRF for waste reduction. It was mentioned there is of focus on tenant relief. There will also be trailer bill language for DTSC.

- 6. **Regulatory Update (4:00 p.m. – 4:05 p.m.)**
 - a. Statewide Commission on Recycling Markets and Curbside Recycling – Expecting a final report on July 1, 2021. Mr. White made a pitch to the commission to consider other advanced technologies to be considered as diversion.

- 7. **Audit – (3:48 p.m. – 3:51 p.m.)** The MOU requires an audit to be conducted annually. Normally conducted in March/April. Due to COVID-19 the audit has not been conducted for 2019 and 2020. Mr. Kernkamp is suggesting one member from each chapter participated on a virtual audit of the LTF financials. Mr. Kobold announced he would appoint a committee and that interested parties should email him.

- 8. **Next Items for Discussion in February 2021:**
 - a. White Papers
 - b. Lobby Day

Meeting adjourned at 4:05 p.m.

Respectfully:

Herb Cantu, Secretary

SWANA 2019-20 Legislation as of Sunday, January 31, 2021

Bill ID/Topic	Location	Summary	Position
AB 1 Garcia, Cristina D Hazardous waste.	ASSEMBLY E.S. & T.M. 1/11/2021 - Referred to Com. on E.S. & T.M.	(1)Existing law provides that the Department of Toxic Substances Control regulates the handling and management of hazardous substances, materials, and waste. Existing law requires the department to, among other things, issue hazardous waste facilities permits to facilities handling hazardous waste and to enforce the requirements of the hazardous waste control laws.This bill would create the Board of Environmental Safety in the California Environmental Protection Agency. The bill would provide requirements for the membership of the board and would require the board to conduct no less than 6 public meetings per year. The bill would provide for the duties of the board, which would include, among others, reviewing specified policies, processes, and programs within the hazardous waste control laws; proposing statutory, regulatory, and policy changes; and hearing and deciding appeals of hazardous waste facility permit decisions and certain financial assurance decisions. The bill would establish an office of ombudsperson in the board to receive complaints and suggestions, to evaluate complaints received, to report findings and make recommendations to the Director of Toxic Substances Control and the board, and to render assistance. This bill contains other related provisions and other existing laws.	
AB 33 Ting D Natural gas.	ASSEMBLY U. & E. 1/11/2021 - Referred to Coms. on U. & E. and NAT. RES.	Existing law vests the Department of General Services with the authority to supervise the design and construction of a school building or the reconstruction or alteration of or addition to a school building to ensure that plans and specifications comply with applicable rules and regulations and building standards, and to ensure that the work of construction has been performed in accordance with the approved plans and specifications, for the protection of life and property. This bill would prohibit the department from approving or providing funding from the construction on new school buildings that have natural gas connections.This bill contains other related provisions and other existing laws.	
AB 96 O'Donnell D California Clean Truck, Bus, and Off-Road Vehicle and Equipment Technology Program.	ASSEMBLY TRA NS. 1/11/2021 - Referred to Coms. on TRANS. and NAT. RES.	The California Global Warming Solutions Act of 2006 designates the State Air Resources Board as the state agency charged with monitoring and regulating sources of emissions of greenhouse gases. The act authorizes the state board to include in its regulation of emissions of greenhouse gases the use of market-based compliance mechanisms. Existing law requires all moneys, except for fines and penalties, collected by the state board as part of a market-based compliance mechanism to be deposited in the Greenhouse Gas Reduction Fund and to be available upon appropriation by the Legislature.This bill would extend the requirement that 20% of funding be made available to support early commercial deployment of existing zero- and near-zero-emission heavy-duty truck technology until December 31, 2026. The bill would further require at least 20% of that funding support early commercial deployment of existing near-zero-emission heavy-duty truck technology. The bill would create a separate definition for “near-zero-emission” and revise the definition for “zero-emission,” as provided.This bill contains other existing laws.	
AB 246 Quirk D	ASSEMBLY B.& P. 1/28/2021 -	Existing law provides for the licensure and regulation of contractors by the Contractors’ State License Board (board). Under existing law, a willful or deliberate disregard by a licensed contractor of various state building, labor, and safety	

Contractors : disciplinary actions.	Referred to Com. on B. & P.	laws constitutes a cause for disciplinary action by the board. This bill would reorganize these provisions and would add illegal dumping to the list of violations that constitute a cause for disciplinary action against a contractor by the board.	
AB 318 Levine D Hazardous waste: classification: exclusions: green waste.	ASSEMBLY PRI NT 1/27/2021 - From printer. May be heard in committee February 26.	The hazardous waste control laws regulate the handling and management of hazardous materials and hazardous waste. Existing law requires the Department of Toxic Substances Control to develop and adopt by regulation criteria and guidelines for the identification of hazardous wastes and extremely hazardous wastes, as provided. Existing law exempts certain kinds of waste, including, among other things, wood waste, as defined, from regulation under the hazardous waste control laws under specified conditions. A violation of the hazardous waste control laws is a crime. This bill would exclude from classification as a hazardous waste green waste, as defined, that has not been contaminated by a chemical that the department determines is hazardous or toxic during the production, harvest, or processing stage. The bill would require that green waste to be disposed of in a permitted class I, II, or III disposal unit or in a compostable materials handling operation, as defined. Because disposal of green waste in violation of this requirement would be a crime, the bill would impose a state-mandated local program. The bill would authorize the department to adopt predisposal management standards for that green waste. This bill contains other related provisions and other existing laws.	
AB 322 Salas D Energy: Electric Program Investment Charge program: biomass.	ASSEMBLY PRI NT 1/27/2021 - From printer. May be heard in committee February 26.	The California Constitution establishes the Public Utilities Commission (PUC), with jurisdiction over all public utilities, including electrical corporations. Existing decisions of the PUC institute an Electric Program Investment Charge (EPIC) to fund renewable energy and research, development, and demonstration programs. Existing law creates in the State Treasury the Electric Program Investment Charge Fund to be administered by the State Energy Resources Conservation and Development Commission (Energy Commission) and requires the PUC to forward to the Energy Commission, at least quarterly, moneys for those EPIC programs the PUC has determined should be administered by the Energy Commission for deposit in the fund. Existing law requires the Energy Commission, in administering moneys in the fund for research, development, and demonstration programs, to develop and implement the EPIC program for the purpose of awarding funds to projects that may lead to technological advancement and breakthroughs to overcome barriers that prevent the achievement of the state's statutory energy goals and that may result in a portfolio of projects that are strategically focused and sufficiently narrow to make advancement on the most significant technological challenges. Existing law, until January 1, 2023, requires the Energy Commission to expend certain percentages of the moneys appropriated from the fund for technology demonstration and deployment at sites that benefit certain communities. This bill would require the Energy Commission to allocate not less than 20% of the funds appropriated for the EPIC program to bioenergy projects for biomass conversion, as defined. This bill contains other existing laws.	
AB 332 Committee on Environmental Safety and Toxic Materials	ASSEMBLY PRI NT 1/28/2021 - From printer. May be heard in committee February 27.	Former law, as part of the hazardous waste control laws, required treated wood waste to be disposed of in either a class I hazardous waste landfill or in a composite-lined portion of a solid waste landfill unit that meets specified requirements. Former law required the Department of Toxic Substances Control, on or before January 1, 2007, in consultation with specified state agencies and after consideration of any known health hazards associated with treated wood waste, to adopt, and authorized the department to subsequently revise as necessary, regulations establishing management standards for treated wood waste as an alternative to the requirements specified in the hazardous waste control laws and implementing regulations. These provisions were repealed as of January 1, 2021. This bill would require a regulation that was adopted before January 1, 2008, pursuant to the above-specified provisions exempting a hazardous waste	

<p>Hazardous waste: treated wood waste: management standards.</p>		<p>management activity from one or more of the requirements of the hazardous waste control laws to remain valid unless repealed. The bill would repeal this provision as of an unspecified date. This bill contains other related provisions.</p>	
<p>AJR 4 Garcia, Cristina D Basel Convention : ratification.</p>	<p>ASSEMBLY NA T. RES. 1/28/2021 - Referred to Com. on NAT. RES.</p>	<p>This measure would declare California to be in favor of the United States' ratification of the Basel Convention at the earliest opportunity and would request the Biden Administration to accomplish this ratification as a matter of urgency.</p>	
<p>SB 38 Wieckowski D Beverage containers.</p>	<p>SENATE E.Q. 1/28/2021 - Referred to Com. on EQ.</p>	<p>(1)Existing law, the Used Mattress Recovery and Recycling Act, requires a mattress recycling organization, comprised of manufacturers of mattresses sold in the state, to develop and submit to the Department of Resources Recycling and Recovery for approval a plan, including a budget to implement the plan, for the recovery and recycling of used mattresses. The act requires the organization to submit annual reports to the department and subjects the organization to audits, if necessary. The act requires the organization to reimburse the department for costs for implementing and enforcing the act. Under the act, a retailer is prohibited from selling, distributing, or offering for sale a mattress in the state unless the retailer is in compliance with the act, and a manufacturer, renovator, or distributor is prohibited from selling, offering for sale, or importing a mattress, or selling or distributing a mattress to a distributor or retailer, unless the manufacturer, renovator, or distributor is in compliance with the act. A violation of the act may be subject to an administrative civil penalty. This bill would require beverage manufacturers in the state to form a beverage container stewardship organization. The organization would be required to develop and submit to the department a plan, annual report, and budget for the recovery and recycling of empty beverage containers in the state similar to that described in the Used Mattress Recovery and Recycling Act. The bill would require the organization to establish a stewardship fee, to be paid by beverage manufacturer members of the organization, to assist in covering the costs of implementing the beverage container stewardship program. The bill would require the organization to reimburse the department for the department's costs of enforcing the program. The bill would require the department to deposit all moneys submitted for reimbursement into the Beverage Container Stewardship Fund, which the bill would create in the State Treasury. The bill would require moneys in the fund to be expended, upon appropriation by the Legislature, by the department to administer and enforce the program and reimburse any outstanding loans, as specified. The bill would impose similar administrative civil penalties for a violation of these provisions. The bill would require the department to deposit all collected penalties into the Beverage Container Stewardship Penalty Account, which the bill would create in the Beverage Container Stewardship Fund. The bill would provide that moneys in the account shall be expended by the</p>	

		department, upon appropriation by the Legislature, to administer and enforce the program. This bill contains other related provisions and other existing laws.	
SB 42 Wieckowski D	SENATE E.Q. 1/28/2021 - Referred to Com. on EQ.	Existing law provides that the Department of Toxic Substances Control regulates the handling and management of hazardous substances, materials, and waste. Existing law requires the department to, among other things, issue hazardous waste facilities permits to facilities handling hazardous waste and to enforce the requirements of the hazardous waste control laws. This bill would establish the Board of Environmental Safety in the department. The bill would prescribe the membership of the board and would require the board to conduct no fewer than 6 public meetings per year. The bill would impose duties on the board, which would include, among others, hearing and deciding appeals of hazardous waste facility permit decisions; proposing statutory changes for hazardous waste management in the state; developing a multiyear schedule for long-term goals for specified department activities; and annually preparing and transmitting to the Secretary for Environmental Protection a review of the department's performance. The bill would establish an office of the ombudsperson in the board to receive complaints and suggestions from the public, to evaluate complaints, to report findings and make recommendations to the Director of Toxic Substances Control and the board, and to render assistance to the public.	
SB 54 Allen D	SENATE RLS. 1/28/2021 - Referred to Com. on RLS.	The California Integrated Waste Management Act of 1989, administered by the Department of Resources Recycling and Recovery, generally regulates the disposal, management, and recycling of solid waste, including, among other solid waste, single-use plastic straws. This bill would declare the intent of the Legislature to enact the Plastic Pollution Producer Responsibility Act, which would significantly reduce the amount of disposable packaging and food ware waste entering California's waste stream, polluting oceans, littering local communities and beaches, and costing local governments millions of dollars in cleanup costs through source reduction requirements and increased composting and recycling.	
SB 83 Allen D	SENATE N.R. & W. 1/28/2021 - Referred to Coms. on N.R. & W. and GOV. & F.	The Bergeson-Peace Infrastructure and Economic Development Bank Act establishes the California Infrastructure and Economic Development Bank (I-Bank) in the Governor's Office of Business and Economic Development. Existing law, among other things, authorizes the I-Bank to make loans, issue bonds, and provide financial assistance for various types of qualified projects. This bill would create the Sea Level Rise Revolving Loan Program within the I-Bank to provide low-interest loans to local jurisdictions for the purchase of coastal properties in their jurisdictions identified as vulnerable coastal property. The bill would require the California Coastal Commission, before January 1, 2023, in consultation with the California Coastal Commission, the State Lands Commission, and any other applicable state, federal, and local entities with relevant jurisdiction and expertise, to determine criteria and guidelines for the identification of vulnerable coastal properties eligible for participation in the program. The bill would authorize specified local jurisdictions to apply for, and be awarded, a low-interest loan under the program if the local jurisdiction develops and submits to the bank a vulnerable coastal property plan. The bill would require the California Coastal Conservancy to review the plans to determine whether they meet the required criteria for vulnerable coastal properties to be eligible for participation in the program. This bill contains other related provisions.	
SB 207 Dahle R	SENATE RLS. 1/28/2021 -	The California Integrated Waste Management Act of 1989, administered by the Department of Resources Recycling and Recovery, generally regulates the disposal, management, and recycling of solid waste. This bill would require the	

Photovoltaic Recycling Advisory Group.	Referred to Com. on RLS.	Secretary for Environmental Protection to, on or before April 1, 2022, convene the Photovoltaic Recycling Advisory Group, consisting of specified members, to review and advise the Legislature on policies pertaining to the recovery of photovoltaic panels and their components. The bill would require the advisory group to consult with relevant entities in order to develop and, on or before April 1, 2025, submit to the Legislature policy recommendations aimed at ensuring that, to the extent possible, 100% of photovoltaic panels in the state are reused or recycled at end of life in a safe and cost-effective manner. This bill contains other existing laws.	
SB 244 Archuleta D Lithium-ion batteries: illegal disposal: fire prevention.	SENATE RLS. 1/22/2021 - From printer. May be acted upon on or after February 21.	The Rechargeable Battery Recycling Act of 2006 requires every retailer, as defined, to have in place a system for the acceptance and collection of used rechargeable batteries, defined to include lithium-ion batteries, for reuse, recycling, or proper disposal. The act requires the system for the acceptance and collection of used rechargeable batteries to include, at a minimum, specified elements, including, among others, the take-back of a used rechargeable battery at no cost to the consumer. This bill would prohibit a person from knowingly disposing of a lithium-ion battery in a container or receptacle that is intended for the collection of solid waste or recyclable materials, unless the container or receptacle is designated for the collection of batteries for recycling, as provided. This bill contains other related provisions and other existing laws.
